## EXPERIENCE

<b>ENS Ttouan   Laravel Developer Internship</b> During my internship at ENS Martil, I contributed to building a web application for digitizing and exchanging administrative documents locally: <ul style="list-style-type: none"><li>Used Laravel, Livewire, JavaScript, TailwindCSS, Pusher, Jetstream, and Dynamic Web TWAIN</li><li>Implemented direct document scanning from physical scanners into the app</li><li>Developed a custom PDF viewer with metadata extraction and text analysis</li><li>Integrated real-time notifications for better user experience</li><li>Enabled real-time collaboration on documents through notes</li><li>Gained hands-on experience and learned the value of innovation and strategic planning</li></ul>	Martil, Morocco   April 2024 - July 2024
<b>Akompro   Wordpress Developer</b> At Akompro, I worked as a WordPress developer, building websites from scratch with a focus on performance and user experience. <ul style="list-style-type: none"><li>Developed custom WordPress themes and made content dynamic using WPBakery</li><li>Used WooCommerce for e-commerce functionality</li><li>Implemented animations with GSAP for engaging interactions</li><li>Ensured fully responsive design across devices</li><li>Contributed to UI/UX design using Figma</li><li>Designed and developed the agencys official website</li></ul>	Fez, Morocco   September 2022 - April 2023

## SKILLS

Programming Languages:	PHP, JavaScript, Python, Java, C
Libraries/Frameworks:	React, Next.js, Prisma ORM, Tailwindcss, GraphQL, Laravel, Livewire
Tools / Platforms:	Git, Github, Trello, Vercel, VSCode
Databases:	PostgreSQL, MySQL

## PROJECTS / OPEN-SOURCE

<b>Expense Tracker Web Application   Link</b> <i>TypeScript, Next.js, Tailwindcss, Clerk Auth, Prisma ORM, Neon (PostgreSQL), Recharts</i> Built a full-stack financial management application to help users track income and expenses with real-time visualizations and secure authentication. Designed for both personal and business use, the app offers an intuitive interface and advanced analytics.	
<b>Blog Web Application   Link</b> Designed and developed a dynamic blog website with a strong emphasis on performance, clean and modern design, and seamless content management experience. The platform offers a smooth and responsive user interface, making it easy for both visitors to navigate and content creators to manage and publish posts efficiently.	<i>Next.js, GraphQL, Headless CMS, Tailwindcss</i>

**Translation & Text-to-Speech Web Application | [Link](#)**      *Serveless Functions, Javascript, Tailwindcss, Vercel CLI, AWS APIs (Transalte + Polly)*

Created an intuitive tool that breaks language barriers by translating text and converting it into speech in various languages and voice options.
